

# PAWGUARDIAN (\$PAWS) WHITEPAPER

## VERSION 2.0 (Security Upgrade)

December 2025

---

### DISCLAIMER

This document is for informational purposes only and does not constitute financial advice. Cryptocurrencies are volatile assets. PawGuardian aims to support charitable causes, but investors should do their own research (DYOR) before participating.

---

### 1. INTRODUCTION: The Mission

PawGuardian (\$PAWS) is a community-driven decentralized finance (DeFi) token built on the Binance Smart Chain (BSC). Our core mission is to bridge the gap between crypto-philanthropy and real-world impact, serving as the premier charity token dedicated to funding animal shelters and rescue organizations globally.

We believe every paw deserves a guardian. By leveraging the power of blockchain, we ensure transparent and consistent support for those who cannot speak for themselves.

---

### 2. THE V2 UPGRADE: A New Era of Security

In December 2025, PawGuardian underwent a critical security infrastructure upgrade, migrating from our V1 contract to a new, fortified V2 contract.

#### Why the Migration?

To ensure the long-term sustainability of the project and protect our community, we deployed a cleaner, more secure smart contract. This proactive measure eliminates potential vulnerabilities and aligns our tokenomics with current market best practices.

#### Key V2 Improvements:

- **Enhanced Security:** The new contract code is simplified and verified to prevent common exploits.
- **Anti-Rugpull Measures:** Hard-coded limits on taxes ensure they can never be abusively raised.
- **Lower Fees:** We have optimized transaction taxes to be more investor-friendly, encouraging trading volume and liquidity growth.

**IMPORTANT:** The old V1 contract is now obsolete. All operations and liquidity have moved to V2.

---

### 3. V2 TOKENOMICS

Our V2 tokenomics are designed for stability, growth, and consistent charitable contributions, featuring a low-tax structure.

#### Token Details

- **Token Name:** PawGuardian
- **Symbol:** PAWS
- **Network:** Binance Smart Chain (BEP-20)
- **Total Supply:** 1,000,000,000 (1 Billion)
- **Decimals:** 18
- **NEW V2 CONTRACT ADDRESS:**

**0xb2DDcaE4F437555715D6Cca4F233b57449dC821e**

---

#### Transaction Fees (Tax)

Every buy and sell transaction is subject to a low **3% Total Tax**, allocated as follows:

##### **3% Marketing & Charity Fund**

This fee is sent directly to the project's dedicated wallet to sustain ecosystem growth and fund donations.

- **Charity Donations:** Manual, verifiable donations sent to animal shelters. Proof of donation is shared publicly with the community.
- **Marketing & Development:** Funds used for exchange listings, partnerships, and technical upkeep.

*(Note: There are no automatic burn or reflection mechanisms in V2 to keep gas fees low and the contract secure).*

---

### 4. TOKEN DISTRIBUTION (V2 Relaunch)

Upon the V2 relaunch, the 1 Billion supply was allocated to ensure fairness to existing holders and immediate market stability:

- **60% - Liquidity Pool (PancakeSwap):** Locked in the V2 pool with BNB to establish a healthy market floor.
- **20% - Community Airdrop / Reserve:** allocated to compensate V1 holders and for future community incentives.

- **20% - Team & Development:** Vesting for ongoing project management and future partnerships.
- 

## 5. ROADMAP

Our path forward is focused on rebuilding trust, expanding our reach, and making our first major donations.

### PHASE 1: Rebirth (Q4 2025) - COMPLETED

- Smart Contract V2 Development & Deployment.
- Security verification on BscScan.
- Successful Migration and Liquidity injection into PancakeSwap V2.
- Community Airdrop to V1 Holders.
- Website and Social Media updates reflecting V2.

### PHASE 2: Growth & Impact (Q1 2026)

- First official "PawGuardian Donation" to a verified shelter (with proof).
- Aggressive marketing campaign pushing the "Low Tax V2" narrative.
- Application for CoinGecko and CoinMarketCap listings (V2 updated).
- Community governance initiatives for choosing next charities.

### PHASE 3: Expansion (Q2 2026 onwards)

- Partnerships with major animal welfare NGOs.
  - Exploration of PawGuardian NFTs where proceeds go directly to shelters.
  - Exchange (CEX) Listings.
- 

## 6. HOW TO BUY \$PAWS V2

PawGuardian V2 is available for trading on PancakeSwap.

1. Download MetaMask or Trust Wallet and fund it with BNB (Smart Chain).
2. Go to PancakeSwap.finance.
3. Click "Swap" and connect your wallet.
4. In the "To" field, paste the **V2 Contract Address:**  
0xb2DDcaE4F437555715D6Cca4F233b57449dC821e
5. Set slippage to **3-4%**.

6. Swap BNB for PAWS.
